CONSTRUCTION MATERIALS OUTPUT INCREASES

NEW GYPSUM MINE IN STALINOGORSK -- Promyshlennost' Stroitel'nykh Materialov,
No 26. 24 Jun 49

About 1 August construction will begin on the largest gypsum mine in the world in Stalingorsk. The mine will be equipped with crushers, having a capacity of 200 tons per hour, made in the Ural Machine-Building Plant imeni Ordzhonikidze, hoisting mechanisms, electric mine locomotives, and machines for sorting, processing, and transporting gypsum from the mine to railroad cars. Loading the crushers will be done automatically.

A new railroad station, named Gipsovyi rudnik, has appeared not far from the mine, and track has been laid between it and the mine.

Two 2-story, nine 8-apartment, two cinder-block, and 11 individual houses have been built in the workers' settlement, and seventeen 2-apartment houses have been built near the mine.

NEW GEORGIAN BRICK, TILE PLANT -- Zarya Vostoka, No 119, 19 Jun 49

A new brick and tile plant is being constructed in Mtskhetsky Rayon, Georgia SSR. This plant will produce construction materials for the Transcaucasus Metallurgical Plant. It will be able to produce 22 million bricks and an equal amount of tile per year. Six million bricks will be produced by the plant this year.
